The Hiring Manager / HR Department
Endsofttech Web Solutions
Cavite, Philippines

Dear Hiring Manager,

Good day.

I am writing to express my strong interest in applying for an **On-the-Job Training (OJT) Internship** position in your organization, specifically in **Front-End Web Development**. I am currently a fourth-year student pursuing a **Bachelor of Science in Information Technology (BSIT)** at **STI College – Rosario** (Section BSIT 704).

As outlined in my enclosed resume, I have established practical competencies in front-end web development, responsive user interface design, relational databases, and API integrations. My technical stack includes **HTML5, CSS3, JavaScript (ES6+), React fundamentals, Java, C#, and Python**, alongside database management in **MySQL and PostgreSQL**. In our Capstone Project, I served as **Team Project Lead and Front-End Developer** for an Internet Service Application System featuring AI-assisted document screening. In addition, I earned **2nd Runner-Up in the STI Tagisan ng Talino CODEFEST 2025–2026** for designing Android XML UI layouts under competitive constraints. These experiences have refined my attention to detail, analytical mindset, and ability to collaborate effectively in team-driven environments.

As part of my academic curriculum, I am required to complete **480 hours** of OJT training and am available to begin immediately. I am particularly eager to join **Endsofttech Web Solutions** because of your commitment to innovative, high-impact web technologies, which strongly aligns with my goal of building an engineering career in front-end and full-stack development.

Enclosed is my combination resume for your review. I welcome the opportunity to discuss how my technical skills and work ethic can support your development team. I am ready to submit school endorsements and attend an interview at your convenience.

Thank you very much for your time and consideration.

Sincerely,

DENZEL G. FORTEZ
